

Pontilly Privacy Hedge

A well designed hedgerow blocks views and noise all while creating wildlife habitat and elevating your landscape. This selection combines evergreen and deciduous woody shrubs that will thrive in sun or shade and provide year-round privacy. The addition of vines trained on the fence or trellis add additional screening and a pop of color. Choose a personal mixture from these categories to create a unique landscape feature that will keep the noise out and the birds in.

9 Total Plants

Plant Selection: Pontilly Privacy Hedge

Choose one (or more) plant from each category
